Objective & Scope of FDP

Best quality faculty is the backbone of any successful institution, which imparts good quality of knowledge and education to the student. Faculty Development Programs (FDPs) are especially important in adapting faculty members to their changing roles in initiating and setting the directions for curricular changes. Faculty fulfills a variety of roles as teachers whose commitment is to provide their students with expert instruction and guidance, as participants in the collegial community of an engineering college and as members of the community of scholars within their disciplines. The objective of this FDP is also to help the faculty to update the knowledge on advancements in construction materials and practices.

Outcomes of the FDP

- Significance of Green Building Design
- Performance and Durability of Cement Concretes
- Materials Innovative and Emerging Technology in Building Construction
- Importance of Civil Engineering in **Electrical Power Transmission**
- Role of Digitalization and AI in **Construction Industry**

Eligibility

Engineering Faculty from Institutions approved by AICTE

Mode of FDP: Virtual (Google Meet)
