As per the feedback analysis from above table, students need to be encouraged in following ways:

- Students are motivated to participate in Multi disciplinary Hackathons which will exhibit their innovation and working together in a team
- Students should concentrate more on Real time projects in latest technologies like E-Tabs, Revit, MIDAS to enhance their technical knowledge
- Students are encouraged to observe the various construction operations in the field to have a better understanding of the real-world situation.
- Students are advised to register for NPTEL & SWAYAM PRABHA courses available online in-order to upgrade their knowledge.
- Students must do internships in real-time projects given by diverse sectors in order to improve their practical expertise.
- Students are interested to participate in various technical competitions to exhibit their technical skills
- Students are guided to attend for placement training programmes which will improve their communication skills & soft skills etc.
- Students are encouraged to participate in various National & International conferences to upgrade their knowledge to the latest technologies/new materials
