Feedback Analysis for the Batch 2018-22

The analysis was done by collecting feedback from students, alumni, employer and parents as shown in the below list

POs/PSOs	Student	Alumni	Employer	Parent
PO1	85.20	93.17	80.00	96.84
PO2	84.41	94.63	75.00	96.84
PO3	81.42	95.61	85.00	96.84
PO4	86.93	94.15	70.00	96.84
PO5	86.30	96.10	80.00	96.84
PO6	82.68	97.07	75.00	97.37
PO7	85.20	96.59	75.00	94.74
PO8	88.35	97.07	95.00	92.63
PO9	87.56	93.66	90.00	96.58
PO10	86.77	98.54	80.00	95.79
PO11	86.77	95.12	80.00	93.95
PO12	87.72	93.66	95.00	96.05
PSO1	83.94	96.83	75.00	96.05
PSO2	84.17	94.88	80.00	96.84

Indirect Feedback Analysis

As per the feedback analysis from above table, students need to be encouraged in following ways:

- Students must enroll for value-added courses in view of new skill set required for their future
- Students are encouraged to undergo certification courses in Course-era, Udemy, edX etc
- Students are encouraged to visit various construction activities in the field to understand the real time scenario.
- Students are advised to register for NPTEL & SWAYAM PRABHA courses available online in-order to upgrade their knowledge.
- Students must complete real-time projects in the core industry to enhance their technical knowledge and skills through major/mini projects which are useful for society.
- Students expecting more software tools in their curriculum to improve the technical skills
- Students need to complete internships in various construction industries/companies to enhance their practical knowledge
- Students are guided to attend for placement training programmes which will improve their communication skills & soft skills etc.
